Commercial Fisheries Research Foundation Announcement:

Shellfish Research Results to be Presented

The research results from the Commercial Fisheries Research Foundation (CFRF) sponsored project entitled "***An Assessment of Quahog Larval Supply and Distribution in the Upper Narragansett Bay with a Focus on Spawning Sanctuaries and Alternative Area Management Strategies*"** will be presented on **Monday, April 14, 2014, in the Coastal Institute Auditorium, University of Rhode Island, Bay Campus, Narragansett, RI beginning at 5:30 PM.** The presentation will be given as part of the Shellfish Management Plan Stakeholders Meeting and Public Lecture organized by the RI Sea Grant Program. The Stakeholders Meeting begins at 6:30 PM.

The collaborative research project, solicited and funded under the CFRF's Southern New England Collaborative Research Initiative (SNECRI) program through NOAA Award #NA08NMF4720595, was carried out by the following team: Dale Leavitt, Roger Williams University; Dennis Erkan, RI DEM; Michael McGiveney, RI Shellfishermen's Association; Scott Rutherford, Roger Williams University; Mark Gibson, RI DEM; Jeff Mercer, RI DEM; Chris Kincaid, URI-GSO; Dave Ullman, URI-GSO; and Tim Scott, Roger Williams University.

For more information on this project and other projects sponsored by the CFRF, please visit: www.cfrfoundation.org or contact the CFRF office at (401) 515-4892.
