

**RHODE ISLAND GOVERNMENT REGISTER
PUBLIC NOTICE OF PROPOSED RULEMAKING**

DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

Title of Rule: Air Pollution Control Regulation No. 36 - Control of Emissions from Organic Solvent Cleaning

Rule Identifier: 250-RICR-120-05-36

Rulemaking Action: Proposed Amendment

Important Dates:

Date of Public Notice: 10/30/2018

End of Public Comment: 11/30/2018

Authority for this Rulemaking:

R.I. Gen. Laws § 42-17.1-2(19)

R.I. Gen. Laws Chapter 23-23

R.I. Gen. Laws Chapter 42-35

Summary of Rulemaking Action:

The purpose of this regulation is to limit volatile organic compound emissions from solvent cleaning operations. The regulation is being amended to incorporate requirements for industrial cleaning solvents used at facilities whose emissions of volatile organic compounds (VOC) from industrial cleaning operations are greater than 2.7 tons in any twelve-month period. The rule **exempts** cleaning activities associated with several source categories already regulated in existing air pollution control regulations. The amendments include work practice requirements, limitations on the VOC content of solvents used for industrial solvent cleaning and recordkeeping requirements. The Department is proposing to eliminate portions of the regulation that no longer apply. Additionally, the regulation has been updated to current RI Code of Regulations (RICR) format which required the addition of an incorporated materials section.

Although R.I. Gen. Laws § 42-35-2.8, require that an oral hearing be granted if requested by twenty-five (25) persons, by an agency or by an association having at least twenty-five (25) members, an oral hearing will be granted if requested by one (1) or more persons during the public comment period.

Additional Information and Comments:

All interested parties are invited to request additional information or submit written or oral comments concerning the proposed amendment until November 30, 2018 by contacting the appropriate party at the address listed below:

Karen Slattery

Department of Environmental Management
235 Promenade Street
Providence, RI 02908

In accordance with R.I. Gen. Laws § 42-35-2.8, an oral hearing will be granted if requested by twenty-five (25) persons, by an agency or by an association having at least twenty-five (25) members. A request for an oral hearing must be made within thirty (30) days of this notice.

Regulatory Analysis Summary and Supporting Documentation:

On March 6, 2017, EPA issued a finding of failure to submit to Rhode Island for failure to submit required State Implementation Plan (SIP) components to address Clean Air Act requirements for the 2008 Ozone National Ambient Air Quality Standard. The finding establishes deadlines by which states either must submit complete SIP revisions or become subject to sanctions. The offset sanction is currently in place.

Specifically, 40 CFR § 51.1116 required RI to submit a SIP revision that meets the requirements of Section 184(b) of the Clean Air Act. Section 184(b) requires states in the ozone transport region to implement or update reasonably available control technology (RACT) controls on all major VOC and NO_x emission sources and on source categories covered by a Control Technique Guideline (CTG) document. In 2006, EPA published a CTG recommending VOC controls for industrial solvent cleaning activities. The Department is proposing to incorporate this CTG into Part 36, "Control of Emissions from Organic Solvent Cleaning," which will be submitted to the U.S. Environmental Protection Agency for approval in Rhode Island's State Implementation Plan. RI must make a complete SIP submission by March 6, 2019, or further sanctions may be imposed.

Additionally, in 2016, the state revised the Administrative Procedures Act to require that every state regulation be rewritten into the new RICR format by December 31, 2018, or it will no longer be enforceable. In order to meet this requirement, Part 36 is being revised to the required RICR format which included the addition of an incorporated materials section.

A fact sheet that more fully describes the proposed revision to the regulation as well as copies of the proposed, revised regulation is available under Proposed Regulations on the Department's website (<http://www.dem.ri.gov/documents/regulations/>).
