

RIDEM

WE ARE HIRING

Environmental Policy Analyst II

DEM Office of Air Resources

The Office of Air Resources (OAR), within the Rhode Island Department of Environmental Management, is looking to fill an Environmental Policy Analyst II position to coordinate, manage, and administer the programs in the Climate Change and Mobile Sources Section. This Section is tasked with the development and implementation of rulemakings, policies and programs aimed at reducing air pollution and greenhouse gas emissions. Through this work, you will carry out OAR's mission for the preservation, protection, and improvement of Air Quality in Rhode Island.

In this position, you will play a key role in expanding existing programs and shaping new regulatory programs, policies, and initiatives. Throughout our work, we seek to incorporate strategies for effective stakeholder engagement and to organize innovative ways to educate and involve the public on air quality and climate issues that affect our lives.

This is an exciting opportunity to join a committed interdisciplinary team of scientists, engineers, managers, and policy leaders in helping shape Rhode Island's framework for addressing air pollution and climate impacts. The work is complex, exciting, and meaningful!

Applicants must possess, at a minimum, a bachelor's degree in engineering, environmental science, meteorology, or a Master's degree in Environmental Policy and have experience employed in a responsible professional position in the environmental field with an understanding of federal and State environmental programs, laws, regulations and policies.

APPLY BY November 27, 2023
