

Point Judith Improvement Dredging Haul Route Notification

Coastline Consulting & Development has been awarded the contract for improvement dredging at Point Judith Pond and Harbor of Refuge.

Dredging operations will commence on or about November 30, 2022 and will be completed by January 31, 2023. The Dredge and sediments will be placed at the Matunuck Nearshore Disposal Site approximately 3.5 nautical miles from the dredge site.

Coastline Consulting & Development is required to use a specific haul route when transiting to and from the dredge material disposal operations.

Individuals seeking additional information regarding this project or have inquiries regarding the loss of fishing gear suspected to be the result of dredged material disposal may contact Mark Jackson at Coastline Consulting & Development, LLC at 203-433-4486.
