

GeoMat™ Leaching System

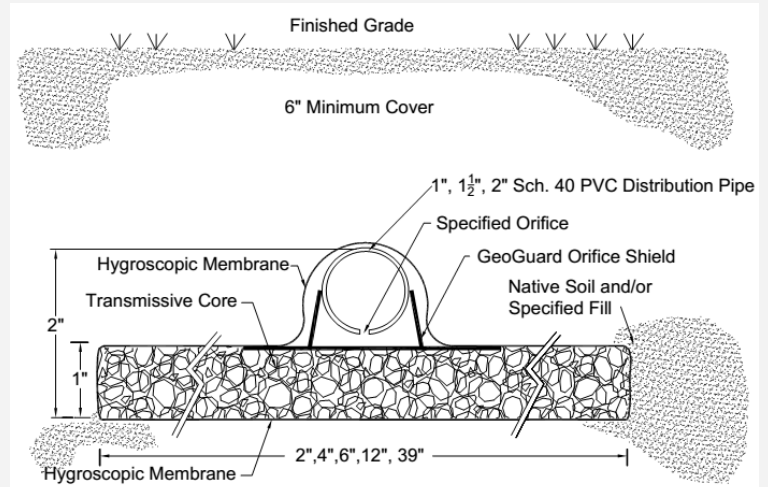

*High performance,
low profile, wastewater
infiltration and reuse systems*

GeoMat Leaching System has a thin profile and maximizes contact with the soil—this enhances oxygen transfer, and increases plant uptake and nutrient removal.

- Lowest Profile—High Performance
- Quick and Simple to Install
- Native Soil or Sand Base
- Preserves Landscape Contours
- Pretreated or Septic Tank Effluent

Simple Installation
Used for:
In ground trenches
Elevated mounds
Contours
Step slopes
