

FROM THE NORTH:

Take I-95 South to exit 9 (Route 4 South). The exit is on the left side. Follow Route 4 to Route 1 South (it turns into Route 1). Stay on Route 1 until the intersection of Route 138 West (Do NOT go East on 138 to Jamestown/Newport; instead, continue several miles past that Newport exit to the 138-WEST junction at the next traffic light).

Turn right at that light (see Mobil station) onto 138 WEST. Go several miles to the first traffic light and at that light turn left onto Route 108. Go ½ mile and see on your left a large sign for URI's East Farm. Turn left and go around rotary. Head straight and the aquaculture building is on your left, continue past the end of that parking lot and we are the next building. There is a sign outside the front door that says Fisheries Center – Building 83; the building has a garage door on either end.

FROM THE SOUTH:

Take I-95 North to exit 3A East (Route 138 East). Continue east on Route 138 for ~ 6 miles to the University.

After the University there will be an intersection with Route 108, turn right onto Route 108. Go ½ mile and see on your left a large sign for URI's East Farm. Turn left and go around rotary. Head straight and the aquaculture building is on your left, continue past to the end of that parking lot and we are the next building. There is a sign outside the front door that says Fisheries Center – Building 83; the building has a garage door on either end.
