

Resilience Planning for Galilee

A public listening session for a sustainable waterfront

Join the **University of Rhode Island's** senior Landscape Architecture students, along with graduate students of Environmental Science and Management and Marine Affairs, in a workshop that will encourage stakeholders to voice their opinions and inform student projects for a waterfront that is more resilient to storms and sea level rise and reflects the values of its community.

Wednesday, Nov. 4, 2015, 2:00 – 3:30 pm

URI Coastal Institute Large Conference Room (Bay Campus)

REFRESHMENTS PROVIDED
