To: Galilee Bertholders

From: Daniel Costa, Port Manager, DEM Division of Coastal Resources

Date: 06/24/2014

As I am sure that you have seen, the DEM is furthering progress of a major construction project that will replace the Sheetpile bulkhead, bulkhead cap, and upgrade docks and utilities from Pier # 3 South to Champlain's. DEM's contractor (CRC) will be relocating their barge next week. The barges will be located **on both sides of K dock starting 6/30/2014 at 9 am**. During this time period there will be **NO BERTHING on K Dock as well as Pier #3 (south side)** and all bait barrels and lines will need to be removed. The barges will continue to move to many locations during this phase of construction, which is concentrating on driving the new sheetpile bulkhead. To date, sheetpile has been successfully driven from Champlain's to the Coastguard building. I will keep you informed with updates on barge placement as well as progress during this time. If you have any questions, please do not hesitate to call Daniel Costa at 401-782-4587. Thank you

Daniel Costa
