PROPOSED ACTION

The Rhode Island Pretreatment Regulations (250-RICR-150-10-2) adopt and incorporate the General Pretreatment Regulations at 40 C.F.R. Part 403 promulgated by the United States Environmental Protection Agency (EPA) on January 28, 1981. These Regulations, mandated by the Clean Water Act, 33 U.S.C. 1251 et seq., govern the control of industrial waste introduced into municipal sewage treatment plants.

As specified in 40 CFR 403.18, program modification is necessary whenever there is a significant change in the operation of a POTW Pretreatment Program that differs from the information in the POTW's submission, as approved under 403.11. Prior to making a final decision of approval on this request, the DEM is providing an opportunity for public comment on the proposed modification for the NBC's Industrial Pretreatment Program.

Pursuant to the General Pretreatment Regulations, the applicant has submitted a request for an approval of a substantial modification to its Industrial Pretreatment Program. The proposed modification consists of a revision to NBC's Rule "Use of Wastewater Facilities" (835-RICR-20-00-1). All users of the NBC's sewer system are subject to this Rule, including 1,900 permitted users. The proposed modifications also include changes to the NBC's local limits, on the basis of NBC's Evaluation of Technically-Based Local Limits for NBC's Field's Point Facility and Bucklin Point Facility (dated January 17, 2020). The request for approval consists of an endorsement statement from the NBC, including a public notice that NBC conducted from 01/28/2021 to 02/27/2021 and a description of the modification. This public notice serves as DEM's requirement to issue a public notice soliciting public comment in accordance with 40 CFR 403.11(b).

Please note that if no comments to this notice are received, the proposed modification will be approved without changes and without further public notice. In such event, this public notice shall constitute the "notice of approval or disapproval" required by 403.11(e).

FURTHER INFORMATION ABOUT THE PROPOSED MODIFICATION:

Further explanation of the modification can be found by examining the documents entitled: "PROPOSED RULE (835-RICR-20-00-1)" and "Evaluation of Technically-Based Local Limits".

All written comments will be considered in the decision on whether or not to approve the proposed modification. All persons who believe any condition of the proposed modification is inappropriate, must raise all reasonably ascertainable issues and submit all reasonably available arguments and factual grounds supporting their position, including all supporting material, by the close of the public comment period. Commenters may request a longer comment period if necessary to provide a reasonable opportunity to comply with these requirements. Comments should be directed to Travis Babikoff as indicated above.

FINAL DECISION AND APPEALS:

Please note that if no comments to this notice are received, the proposed modification will be approved without changes and without further public notice. In such event, this public notice shall constitute the "notice of approval or disapproval" required by 403.11(e) and no additional notice shall be provided. If, during the public comment period, significant new questions are raised concerning the proposed modification, DEM may require a revised modification or may reopen the public comment period. A public notice will be issued for any of these actions.

Further information may also be obtained by contacting Travis Babikoff at DEM at (401) 222-4700 ext. 77274 or by email at travis.babikoff@dem.ri.gov.
